

Jean Aime Patrick

Software Developer | DevOps | Cloud | Machine Learning

Washington, DC | +1 (771) 242-6073 | niyonzimaj@cua.edu | linkedin.com/in/patrick2016

SUMMARY

Computer science graduate student at The Catholic University of America with hands-on experience in DevOps, cloud infrastructure, full-stack development, and research support. Builds scalable systems and automates workflows using AWS, Docker, Jenkins, Git, Python, React, Django, databases, and machine learning tools.

EXPERIENCE

Full-Stack Development - Research Platform | Jan 2025 - Ongoing

- Built frontend and backend features for collaboration and workflow management.

Operations Assistant - CUA | Oct 2025 - Present

- Handled customer service, event operations, maintenance requests, and supervised setup crews.

DevOps Engineer Intern - Smart Rewards Inc. | Nov 2024 - Apr 2025

- Monitored system performance, troubleshoot issues, and supported infrastructure reliability.

Teaching Assistant and Research Assistant - CUA | Jan 2025 - Apr 2025

- Supported research through data analysis and reporting using Python and Excel.

ALP Community Moderator (Volunteer) | Apr 2024 - May 2024

- Managed Discord communities, handled conflicts, and organized events.

EDUCATION

The Catholic University of America | Master of Science in Computer Science | Aug 2024 - May 2026

- Coursework: Machine Learning, Deep Learning, Web Development, Secure Computing, Network Security.

Marwadi University, India | Bachelor of Technology | Oct 2020 - May 2024

- Coursework: OS, DBMS, Cryptography, Cloud Computing, AI/ML, Data Structures.

PROJECTS

IgniteHub Research Platform | Ongoing

- Developing frontend and backend features for faculty networking, grant management, and research collaboration workflows.

Flight Fare Prediction

- Machine learning model using Random Forest, KNN, and Decision Trees for airfare prediction.

Ceremony Planning Platform

- React and Django application integrated with cloud services for scalable storage.

Student Feedback Analyzer

- NLP sentiment analyzer to interpret student feedback and improve education quality.

SKILLS

AWS, Docker, Jenkins, Git, Python, React, Django, APIs, Databases, Machine Learning, Cloud Deployment, Automation, Data Analysis
